Quiz 3: Constraints
## Quiz 3: Constraints

3/3 points (ungraded)
Consider the constraint graph shown below.

How many variables does the CSP have?

6	✔

How many constraints does the CSP have?

5	✔

We needed to use a hypergraph representation of the constraint graph because some of the constraints involve more than one or two variables (i.e., some constraints are not unary or binary constraints). How many of the constraints are not unary or binary constraints?

3 ✔

Submit

✔ Correct (3/3 points)
